## PROGRAM UNIVERSE DESCRIPTIONS

**1 - TSD's Subject to CEI Universe** This universe captures all facilities potentially subject to enforcement.

**2 - Subject to Corrective Action Universe** This universe captures all facilities potentially subject to corrective action regardless of whether they have corrective action underway plus any handlers showing a corrective action event for RFI or beyond. Handlers conducting corrective action under analogous state authorities are also included.

**3 - Corrective Action Workload Universe** This universe is a subset of the Universe Subject to Corrective Action. This universe does not include converters, clean closed, or non/late notifiers. All handlers with ongoing corrective action, and handlers where corrective action is statutorily required to be addressed but have not had corrective action imposed will be included in this universe.

**4 - Permitting/Closure/Post-Closure Progress Universe** This universe includes all units that are or were at some time subject to the requirement to obtain a RCRA permit to operate as a TSD.

**5 - Permit Workload Universe** This universe includes units in the permit pipeline as well as units with active permits.

**6 - Closure Workload Universe** This universe includes units that are closing up to the time that closure certification is verified by the agency.

**7 - Post Closure Workload Universe** This universe includes closing land disposal units and storage units closing as landfills up to the time that clean closure certification is verified by the agency.
